Richard Nixon

I was at home grilling steak when I saw something in the backyard. I wasn't sure what it was,So I looked at it and it was a time machine!I went inside and saw a screen, Tv and lots of buttons and handles.I started playing around, I pushed the handles and randomly started pushing buttons. I put in the numbers 6171972. All of a sudden the time machine started making weird noises.I was feeling nervous and I wondered what was getting ready to happen. When the time machine stopped, I thought to myself " I need to get out of here." I opened the door and wanted to check on my steaks and get back to grilling. However,I wasn't in my backyard any longer. I was in front of a large apartment complex. I read the sign on the side of the building and it said "Watergate'' I also found myself with a bag that had food, water, a phone, a staff, a flashlight and a security officer's uniform. I looked beside me and saw a dirtbike! "Where am I and what is with all this stuff?" I thought to myself. I remember Watergate from my US history class. Watergate involved President Nixon and I must be in Washington DC!I look around and notice people all over the place. They were dressed in bell bottoms, jumpsuits, and aviator glasses.All of a sudden things made sense ,I was in 1972. I decided to watch over the president at the apartment.

I decided to put on a security guard uniform so that I could blend in. I hid until it got dark and then I went inside to check things out. I was walking down the hallway when all of a sudden out of the corner of my eye I saw five men who looked suspicious.So I turned off my flashlight and it was dark. I didn't want to be seen.I followed the men and watched them put some strange device and put it behind the bookshelf. I built a trap that was made from metal and ropes.I use lasers to get them caught.Once they were in the trap i called the police and waited for them.Once the police arrived i told them everythimg and they said thank you for helping the president.I hopped on the dirtbike and went back to the time machine.I go into the

time machine and i put in the numbers 5 15 2024.All of sudden i was back home.And I checked on my steaks and they were all burnt.
